

GLM2025

Technical Specifications

Dimensions: 420mm × 114mm × 140mm

Voltage range: 220V~450VDC

Continuous Discharge Current: 200 A

Protection Level: IPXXB, IP67

Box material: Flame retardant plastic

Weight: 5.1kg

flame retardant rating: UL94-V0

Product Features

- Integrates main relay, CUS (Current Sensing Unit), BMS (Battery Management System), and pre-charge circuit. Sampling points are designed for the main relay, and the assembly is mounted outside the battery pack.
- The product features a housing made of plastic and sheet metal, achieving an IP67 protection rating.
- The BMS is built-in and supports signal transmission via harness and Bluetooth.
- The B+ and B- interfaces are equipped with quick-change connectors for fast replacement.
- Mounted outside the battery pack.
